

Village of Springport Cemetery Board  
Meeting August 21, 2017

Prior to the meeting Mr. Zach Parish presented a model of the proposed crosses he would like to build for the cemetery to take the place of those crosses that have broken or rotted away. He would like to also make crosses for the areas of some of the "tin plates" that have become bent, broken, missing, or faded so that no names are readable. This is an Eagle Scout project for Zach. The Village will supply materials once Council approves.

The meeting was called to order at 10:15. Present were Chairman Terpening, Trustee Conley, and Manager Naylor. Absent Grove and McClellan. Discussion was held on trees that were removed and stone that was hauled in to help the mudholes left by the winter. Discussion on the moles (Voile) problem and possible solutions.

It was reported that expense for mowing was down this summer due to the dry spell. Discussion also on income and expenses and the possible need for new mowers in the next season.

A vote was taken on accepting the bid for crosses as an Eagle Project. Ayes by all passed the vote. It will now be presented to Council
